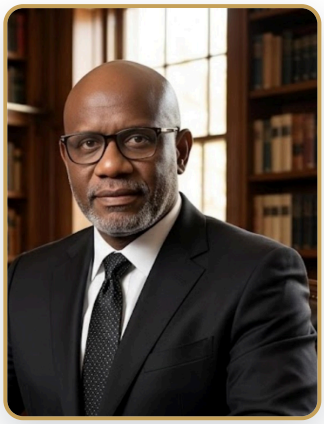
Why I Created The Magnetic Mind

From a Single Spreadsheet to a Daily Accountability Partner



Devon Farquharson
FOUNDER, THE MAGNETIC MIND INSTITUTE

Most people who study personal growth don't fail because they lack information. They fall short because life gets loud, routines slip, and without daily accountability, the old paradigm quietly takes the wheel again.

I learned that lesson firsthand.

When I went through Proctor Gallagher's **Thinking Into Results** program, one simple requirement transformed my momentum: I had to track my study twice a day and write a brief synopsis of what I learned. That daily discipline kept my mind locked onto the material. I wasn't just consuming ideas — I was living inside them, morning and night.

Then I moved on to **The New Lead The Field** program. The material was just as powerful, but there was one critical difference: there was no mandatory daily tracking. Almost without realizing it, I started to slip. A missed evening turned into a missed day, and a missed day turned into broken momentum.

Refusing to let my growth fade, I built a simple **Excel spreadsheet** to track my daily mindset activities. It worked — immediately. Seeing my habits laid out in front of me brought the discipline right back. Soon I thought, *"What if I turned this spreadsheet into a clean webpage?"*

When I showed the webpage tracker to my wife, she immediately asked how she could use it too. So I hosted it on our home network so we could both log our daily activities from our own devices. As we watched how powerfully it kept us aligned, a bigger realization hit us: the people we were coaching needed this exact structure — not just during a weekly call, but **every single morning and every single night**.

That was the moment **The Magnetic Mind Digital Planner** was born.

> *"The gap between knowing what to do and doing it every single day is accountability. When your habits are visible at a glance, your paradigm has nowhere left to hide."*
> — DEVON FARQUHARSON

The Daily Tab: Your Command Center

Six Core Daily Habits That Turn Knowledge Into Unstoppable Consistency

Lasting transformation doesn't happen in a weekend seminar — it happens in the quiet consistency of what you do every morning and every night. At the top of **Your Day**, three live controls keep you anchored: a real-time **Cloud Sync Indicator**, your cloud-verified **Daily Streak Counter**, and a **Female / Male Voice Selector** for all Text-to-Speech playback.

The 6 Core Habits (Complete All 6 to Turn Your Day GREEN)

1 Daily Quote *(Message Received)*

Start your mind on a higher frequency with a curated daily quote of timeless wisdom. Read it, absorb it, and tap **Message Received**.

2 Morning Visualization

Your custom visualization carries forward automatically each day so you never start from scratch. Use **Professor D** to build or polish your text into vivid present tense.

Goal Photo Upload Upload a personal picture of your goal to display right on screen during Visualization Mode to powerfully anchor the mental image.

Built-In Text-to-Speech Tap the headphones to have the app **read your goals and visualization aloud to you** hands-free on a loop over a calming **432Hz Theta wave**.

3 Daily Gratitude

Write 3 specific gratitudes as if already accomplished — each pre-seeded with *"I am so happy and grateful now that..."* The **Completed Today** box unlocks only after all 3 statements are filled in.

4 Daily Study

Repetition reprograms your paradigm. Select your active study program from the dropdown — **Thinking Into Results (TIR)**, **Lead The Field**, or **Other** — and check **Study Completed**.

5 Inspired Action

Knowledge without action changes nothing. Each day gives you a fresh **Idea for Today** prompt plus a journal box to record the concrete step you took toward your dream.

6 Evening Release

Dissolve doubt, tension, and worry before sleep and hand your goal to your subconscious overnight. Includes the same **Professor D AI**, Goal Photo Upload for visual anchoring, and Built-In Text-to-Speech over the **432Hz Theta wave** to read your release aloud as you unwind.

The Sanctuary Tab: Rewire Your Subconscious

Turn Vague Wishes Into Commanding Scripts, R.I.C.H.E.S.T. Affirmations, and Full-Screen Visual Immersion

As Bob Proctor taught, *"You can never outperform your self-image."* You can master every strategy in the world, but until the picture held inside your subconscious mind shifts, your results will always snap back to your old comfort zone. The **Sanctuary Tab** is your private chamber for architecting that new inner blueprint.

Three One-Tap Controls on Every Script & Affirmation

Consult Professor D (Cap Icon)
Answer 3 guided questions (with one-tap example starters) and Professor D writes a vivid, present-tense script for you.

432Hz Audio Loop (Headphones)
Enters full-screen "Absorbing Vision" mode, reading your script aloud on loop over a 432Hz Theta wave with live highlighting.

Manual Edit (Pen Icon)
Personalize any line anytime, then tap the checkmark to save straight to your secure cloud database.

1. Your Three Foundational Paradigm Scripts

At the top of your Sanctuary sit the three master scripts that define *who you are*, *how you live*, and *why you are here*:

1 Self Image Script
"Your self-image is your destiny." Define the exact poise, character, and identity of the person who already lives your C-Type Goal — including the traits of role models you admire and the legacy you deliberately choose to leave.

2 Typical Day Script
Paint a vivid movie of your ideal day from sunrise to sunset — how you feel when you wake up, the fulfilling work that fills your morning and afternoon, and the people you deeply enjoy your evening with.

3 Purpose Script
Crystallize your **Definite Major Purpose** — the deepest calling burning inside your heart, the specific people you feel uniquely equipped to serve, and the God-given gift you commit to pouring into the world.

> *"Your self-image is the exact blueprint of your reality. Hold the new picture consistently, and your habits, choices, and results must conform to it."*

3. Expansion Vision Board

The subconscious mind thinks in **pictures**, not just words. At the bottom of your Sanctuary sits your interactive **Vision Board**:

Upload & Caption Your Visions
Tap **Add Vision** to upload photos representing your dream home, financial freedom, health, travel, or legacy — each labeled with your own custom caption.

Full-Screen Visual Immersion
Tap **any image** on your grid to expand it full-screen with your caption framed cleanly below, letting you hold that picture on the screen of your mind with zero distractions.
Device Storage Note: *Vision Board photos are stored locally on your device — not in the online database — so if you ever upgrade or replace your phone, you will simply re-add those pictures on your new device.*

WHY USERS LOVE THE SANCTUARY
Instead of scattered notebooks, closet-wall vision boards, and generic affirmations written for someone else, your Sanctuary gives you **your own words, your own images, and your own 432Hz audio sessions** — backed up in the cloud and ready whenever you have five quiet minutes.
